Growing Instructions:

Sow two seeds per pot in early spring, covering lightly with fine soil, and ensure a minimum temp of 21°C until germinated.

When 7-10 cm high plant to growing position, (ground/ 9 inch pot or 3 per grow bag).

Best under glass as they will not tolerate cold conditions. Provide support and keep pest free.

To aid fruit development, add potassium rich fertilizer with each watering when fruit has set. To encourage further production, pick before the fruit surface shine fades.

Harvest July – October.

Black Beauty is a classic heirloom eggplant variety celebrated for its glossy, deep-purple skin, rich flavor, and meaty texture. A highly versatile in Mediterranean and Asian cooking, whether grilling, frying, or roasting.
