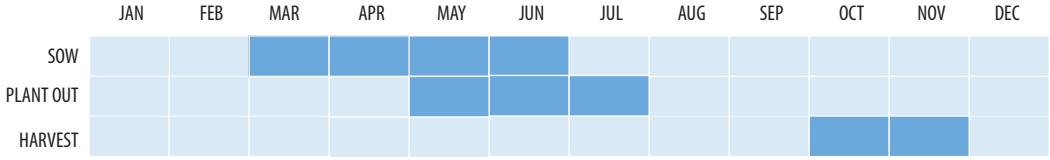
CAULIFLOWER ROMANESCO

Let's get growing!



Growing Instructions:

Sow indoors between March & June.

Sow seeds thinly into pots and cover with a thin layer of compost, keeping evenly moist.

Transplant seedlings by at least mid-summer, do not let seedling become more than 5 weeks old before potting on.

Set plants 45cm apart in rows 60cm apart.

Water deeeply oncea week in dry weather.

Harvest October - November.

A striking, lime-green cruciferous vegetable native to Italy. Famous for its natural fractal spiral patterns, it combines the tender, nutty flavor of cauliflower with the firmer texture of broccoli.
