Bee & Butterfly Friendly

Growing Instructions:

Displaying spikes of tubular flowers in white with dark spotted throat. A biennial which will self seed and naturalise.

Surface sow seeds indoors in seed trays February-April. Lightly press into moist well-drained compost, do not cover as they need light to germinate.

Prick out seedlings large enough to handle.
Acclimatise and plant out after danger of frost has passed.

Flowering May-July.

Perfect for flower beds, borders or as cut flowers.

150-250cm Height

10-50cm Spread

Part Shade
