Pollinator Friendly

Growing Instructions:

The ever-popular annual with its clouds of star-like white blooms.

Sow undercover February and March. Or direct sow April to June when the ground can be worked, rake the soil and sow the seeds barely covering them.

Requires sharp drainage, and no fertilisation.

Flowering June- September.

Can also be sown indoors in Autumn for early flowers the following year.

Perfect for cut flowers or in flower beds, patio, cottage and wildlife gardens.

Manufactured in the UK by Scott & Co. Ltd mail@scottandcoproducts.co.uk www.scottandcoseeds.co.uk
