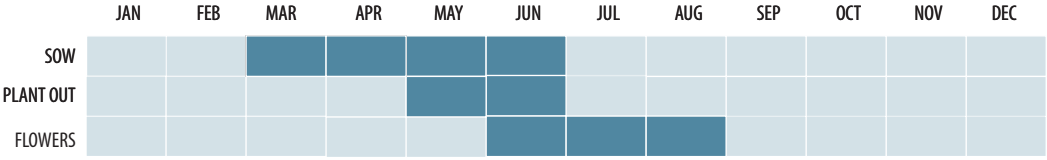
OENOTHERA LAMARCKIANA
EVENING PRIMROSE

Let's get growing!



Pollinator Friendly

Growing Instructions:

Richly scented light yellow flowers, opening late afternoon remaining open through the evening.

Sow in a seed tray with a light covering of compost March - April. Keep in a cool dark spot under a cloche. Exclude light until germination starts, keep the compost moist.

Transplant when large enough to handle, planting out after risk of frost.

Can direct sow April-June, raking into prepared soil. Will self seed.

Flowering June-August.

Perfect for cottage & meadow style borders.
