Pollinator Friendly

Growing Instructions:

Open flowers in unusual colours like straw yellow & nearly blue overlaid with contrasting veins.

Surface sow in heated propagator February to April. Press seeds into compost, cover with a thin layer of vermiculite.

When large enough to handle transplant, acclimatising before planting out once risk of frost has passed.

Pinch out the growing tip of each stem to encourage more flowers.

Flowering June-September.

Ideal for in pots, flower beds & borders or as cut flowers.

50cm Height
