Growing Instructions:

A perennial offering a mix of white, rose and violet spikes with basal foliage.

Sow direct September-October, thinly sowing onto prepared soil. Or sow in a warm sunny spot indoors February-March in deep pots covering with compost or vermiculite.

When large enough to handle transplant and acclimatise before planting out once risk of frost has passed 60cm apart.

Flowering May-August.

Perfect for borders, beds, rockeries or cut flowers.
